

AIR HANDLERS
RH2T

LONG-LASTING COMFORT THAT FEELS JUST RIGHT

Depend on the Ruud® EcoNet® Enabled High Efficiency Two-Stage RH2T Air Handler to deliver energy-efficient comfort to your home. The unit is designed to help save you money on utility bills while quietly enhancing indoor air conditions.

Ruud.com

Advanced Comfort

The Ruud High Efficiency Air Handler adjusts airflow in the home to help control humidity. Airflow can be set for specific needs, so your home feels just the way you want it.

Reduce Energy Bills

Reducing your monthly energy bills is easier than ever with the RH2T High Efficiency Air Handler. The unit is designed to exceed minimum efficiency standards, which will help lower your monthly utility bill.

Smart Controls & Alerts

Innovative technology sends you important alerts and reminders to keep your system working at its best. Plus, it's easy to adjust your comfort settings from home or away¹.

RELY ON RUUD.™

Ruud Philosophy of Reliability

Designed to keep your family comfortable for years to come, Ruud® products are developed using the 360°+1 design philosophy. The Ruud brand strives to deliver the very best homeowner experience by evaluating every detail of the product from every angle. That's 360°+1. And that's why you can rely on Ruud heating and cooling solutions to bring you and your family years of comfort.

The RH2T Air Handler is designed to operate with the EcoNet Smart Thermostat. This easy-to-use thermostat optimizes system performance and includes great features like:

- Simple scheduling and one-touch energy savings
- Remote access via the EcoNet App
- Important equipment alerts sent directly to your phone or email
- Convenient voice control – just ask “Alexa, make home cooler”²

Humidity Control

A Ruud Air Handler will help manage humidity levels in the home, improving your comfort and helping you save money on energy bills.

Efficient Heating & Cooling

Air handlers also feature a flexible design that allows them to meet the needs of a variety of systems. Your contractor will recommend a unit that will best meet your home's airflow needs. The **1** factory-installed indoor aluminum cooling coil is the key component for your air handler. The coil is essential to humidity control and improved system performance, and the high-quality standards used in manufacturing ensures a long-lasting, reliable performance.

Quiet Operation

The air handler is designed with a **2** sturdy steel cabinet with **3** 1" of foil-faced insulation, offering excellent thermal and sound insulation.

Ruud Quality

The RH2T Air Handler features a lanced fin design for maximum performance and increased efficiency. A high-grade condensate drain pan keeps the unit operating smoothly, especially when the weather heats up. And the corrosion-resistant aluminum endplates keep your unit looking as good as it runs.

Benefits At-A-Glance

Motor:
Constant Torque (ECM)
Two-Stage Airflow

Evaporator Coil:
All-Aluminum

Limited Warranty³:
Conditional parts warranty—10 years
